Since 2008, Turning **Learners** Into Professionals

IPCS Global began in 2008 as a specialised industrial automation training and services provider. Since then it has grown into one of India's leading technical and digital skills institutes, with more than 50 branches across India and the GCC.

Our Coimbatore centre in Peelamedu is a full-fledged training hub that combines classroom teaching with hands-on labs — PLC and drive panels, security and building systems, embedded boards and computer labs — so students, graduates and working professionals move confidently from theory to real work.

What sets us apart is that we train the whole professional: alongside technical skills, every learner is coached in communication, aptitude and interview readiness. Today our alumni work across manufacturing, IT, digital, facility and process industries in India and abroad.

At a Glance

- ✓ Founded in 2008
- ✓ Industrial automation pioneer
- ✓ ISO 9001:2015 certified
- ✓ TÜV SÜD cooperation partner
- ✓ NSDC approved training partner
- ✓ Dedicated placement cell
- ✓ Branches across India & GCC

Part of the IPCS Group

IPCS Automation

Industrial automation solutions — PLC/SCADA panels, BMS and control systems for real plants and facilities.

IPCS Technologies

Digital and technology services — web, software and automation solutions for growing businesses.

Automation lab and digital marketing batch at IPCS Global Coimbatore.

Our Mission, Vision & Values

Our Mission

To deliver practical, industry-aligned training that turns learners into confident, job-ready professionals — and to stay with them until they are placed.

Our Vision

To be the most trusted bridge between talent and industry across India and the GCC, known for skills that employers can see on day one.

What We Stand For

1

Practical First

Every concept is practised on real equipment, tools and projects.

2

Industry Relevance

Curricula updated to match what employers hire for today.

3

Learner Success

We measure ourselves by our learners' careers, not course completions.

4

Quality & Consistency

ISO-certified processes so every batch gets the same standard.

5

Honest Guidance

Clear, realistic counselling on courses, careers and outcomes.

6

Lifelong Learning

Upgrade paths so learners keep growing after the course.

Who We Train

✓

School Students

STEM and robotics foundations.

✓

College Students & Freshers

Job-ready skills and placement support.

✓

Working Professionals

Upskilling with weekend and fast-track batches.

✓

Career Switchers

Structured routes into new fields.

✓

Business Owners

Digital and analytics skills to grow a business.

✓

Defence Personnel

Resettlement training for civilian careers.

Meet Our Coimbatore Team

Trainers, mentors, counsellors and placement coordinators who work with every learner from the first class to the day they are placed.

The IPCS Global Coimbatore team at our Peelamedu centre.

How Our Team Supports You

1

Technical Trainers

Industry-experienced trainers who teach every module hands-on in the lab.

2

Career Counsellors

Help each learner choose the right programme, batch and career path.

3

Placement Coordinators

Run interview drives, referrals, resume reviews and mock interviews.

4

Centre & Learner Support

Keep batches, labs and schedules running smoothly day to day.

Five Training Verticals

Each vertical is built around practical labs, live projects and certification pathways that map directly to what employers hire for.

Industrial Automation

7 programmes · 20 Days to 4 Months

Our founding specialisation since 2008: multi-brand PLC, SCADA, HMI, VFD, servo, DCS, instrumentation and Industrial IoT.

Flagship: Professional Diploma in Industrial Automation

Building Management Systems

6 programmes · 1 Week to 12 Months

CCTV, networking, intruder alarms, access control, fire alarm, BMS controllers, HVAC, solar and smart home automation.

Flagship: Diploma in Building Management Systems

Embedded Systems & IoT

8 programmes · 30 Days to 4 Months

Embedded C, 9+ microcontroller families, RTOS, Embedded Linux, IoT, automotive (CAN/UDS/EV) and PCB design.

Flagship: Advanced Embedded Systems Program (CESE)

IT, AI & Software Development

15 programmes · 1 to 6 Months

AI & machine learning, data science & analytics, Python / MERN / MEAN / Java / PHP full stack, Power BI and QA testing.

Flagship: Professional Diploma in Artificial Intelligence

Digital Marketing

8 programmes · 30 Hours to 6 Months

SEO, Google Ads, social media, content, email, analytics, e-commerce and CRM — with AI built into every skill.

Flagship: AI+ Digital Marketing

Not sure which to choose?

Our counsellors match your background and goals to the right programme — see the Course Finder, or book a free demo class.

All 44 Programmes at a Glance

Every programme has its own detailed Course & Career Guide, and each vertical has a complete branch-wise guide.

INDUSTRIAL AUTOMATION	DURATION	HOURS
Professional Diploma in Industrial Automation	4 Months	360
Automation System Engineer	3 Months	240
Certified Industrial IoT Professional	3 Months	240

Which Programme Is Right for You?

A quick guide based on your background. Our counsellors will help you fine-tune the choice.

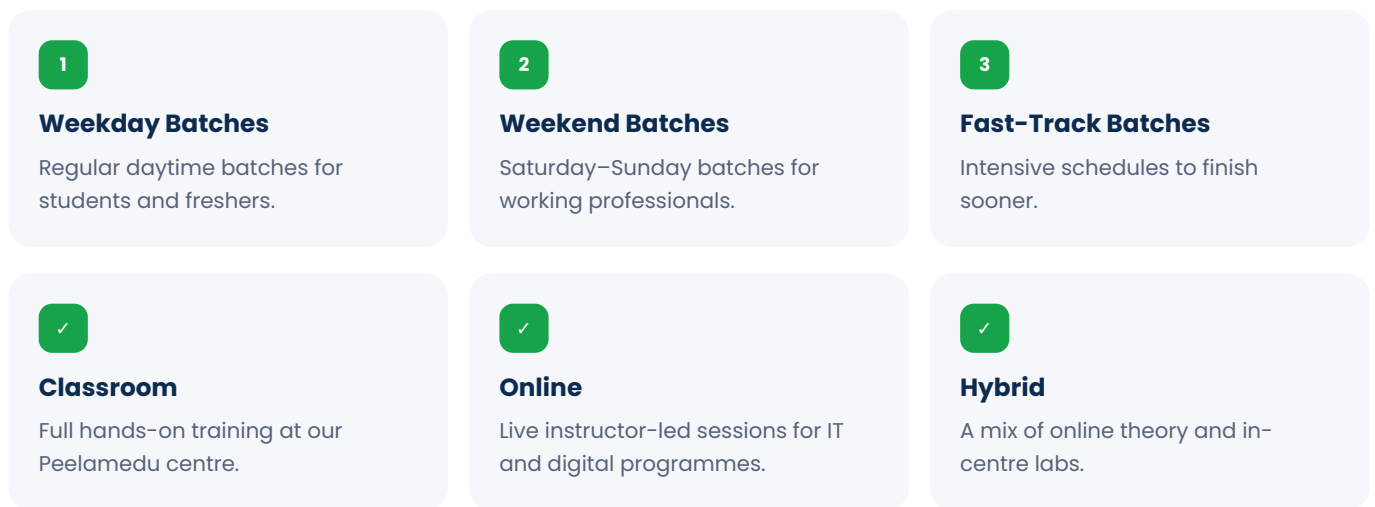

School students (Class 8–12)	Junior Robotics Master Program A fun, hands-on start in electronics, Arduino and robotics.
10th / 12th pass, ITI	CCTV Installation · CCTV & Security Systems · Smart Home Automation · Electrical Control Panel Design Quick, employable trade skills with a path to BMS and automation diplomas.
Diploma / BE – EEE, EIE, Mechatronics	Professional Diploma in Industrial Automation · Automation System Engineer · Certified IIoT Professional · Diploma in BMS Core, commissioning-ready engineering careers in India and the GCC.
Diploma / BE – ECE, EEE	Advanced Embedded Systems (CESE) · Automotive Embedded · AI- Integrated Embedded & IoT · PCB Design Firmware, IoT, EV and hardware design careers.
BE CSE / IT, BSc, BCA, MCA	Python / MERN / MEAN / Java Full Stack · Professional Diploma in AI · Python with Data Science · QA Automation Software development, AI and data careers.
Any degree (arts, commerce, science)	AI+ Digital Marketing · Professional Diploma in Digital Marketing · Professional Data Analytics · Software Testing High-demand careers that don't need an engineering background.
Working professionals & business owners	Certified Power BI Developer · Business Analytics · Online Entrepreneurship (ACCOE) · SEO / SEM / SMM certifications Short, focused upskilling with weekend and fast-track batches.
Defence personnel in transition	Diploma in Building Automation Technology · Diploma in BMS Structured resettlement training for civilian facility and automation roles.

Our Learning Method

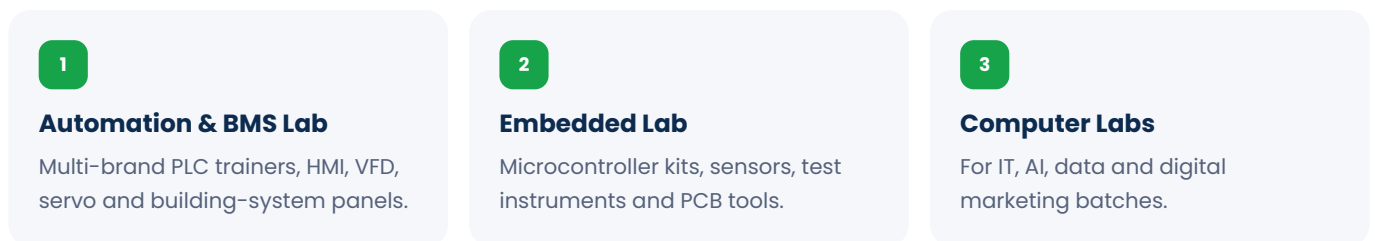

Every programme follows the same proven cycle — so learners don't just understand concepts, they can apply them on real equipment and real projects.

Batches & Learning Modes

Our Labs

Certifications & Recognition

Training you can trust — backed by recognised quality standards and verifiable proof of the work you have done.

- ISO ISO 9001:2015 Certified**
 Our course design, training delivery and learner support follow an audited Quality Management System — so every batch gets the same dependable standard of training.
- TÜV TÜV SÜD Cooperation Partner**
 TÜV SÜD is a globally respected German testing, inspection and certification body founded in 1866. Our partnership measures our technical training against international benchmarks.
- NSDC NSDC Approved Training Partner**
 IPCS Global is an approved training partner of the National Skill Development Corporation under Skill India, enabling government-accredited certification.
- INT Internship Certification**
 Alongside the course certificate, learners receive an Internship Certification recognising their labs, live projects and real equipment work — verifiable experience for freshers.

Which Certificate Do I Get?

VERTICAL	CERTIFICATION
Industrial Automation	TÜV SÜD certification + IPCS Global course certificate + Internship Certification
Building Management Systems	TÜV SÜD certification + IPCS Global course certificate + Internship Certification
Embedded Systems & IoT	Government-accredited (NSDC) certificate + IPCS Global course certificate + Internship Certification
IT, AI & Software	TÜV SÜD certification + IPCS Global course certificate + Internship Certification
Digital Marketing	IPCS Global course certificate + Internship Certification + preparation for Google Ads, GA4, Meta Blueprint & HubSpot certifications

Life on Our Training Floor

Labs, classrooms and hands-on sessions at our Coimbatore centre — where theory meets industry-grade equipment.

Placement & Career-Readiness Support

Technical skill gets you noticed — presentation and confidence get you hired. Every learner goes through a structured career-readiness track alongside their course.

01

Dedicated Placement Cell

An in-house team works with industry partners to line up interviews, drives and referrals — supporting learners until they are placed, not just until the course ends.

02

Resume Building

One-on-one sessions to craft an achievement-focused resume tailored to the role and industry each learner is targeting.

03

Aptitude Training

Structured practice in quantitative aptitude, logical reasoning and verbal ability — the areas most recruiters screen first.

04

Personality Development & Talentino

Communication, body-language and workplace-readiness coaching, plus our in-house talent showcase sessions.

05

Mock Interviews & Group Discussions

Simulated technical and HR panels and GD rounds, so the first real interview never feels like the first.

Course & Career Guides: every programme comes with a single guide covering the full syllabus, module topics, projects, the job roles it leads to, a realistic salary ladder, and the skills and certifications to add next.

WHERE IT ALL LEADS

Placement Success

Every course, mock interview and resume session builds toward this moment — a learner walking out with an offer in hand. A few of our recent Coimbatore placements:

Training Defence Forces Personnel

In association with the IASC Sector Skill Council and the Directorate General Resettlement (DGR), IPCS Global delivers a "Building Automation Specialist" programme that helps Indian Air Force personnel build industry-ready skills ahead of their transition to civilian careers. Several batches have been trained, and the programme continues to grow.

About the Programme

1

Building Automation Specialist

Hands-on training in building management, security, fire and automation systems.

2

Resettlement Focus

Designed for personnel moving into civilian facility and automation careers.

3

Industry Certification

Delivered with IASC Sector Skill Council and DGR.

What Our Learners Say

Feedback themes from learners who have shared their experience with IPCS Global Coimbatore.

"The trainers were approachable and genuinely invested in one-on-one guidance — the practical, lab-based approach made complex automation concepts easy to grasp."

— Industrial Automation graduate

"A well-structured Digital Marketing syllabus with real campaign exposure. I'd recommend it to anyone starting out or looking to move up."

— Digital Marketing learner

"What stood out was how seriously the placement team followed up — mock interviews and resume feedback made a real difference."

— Placement programme alumnus

"Good lab facilities compared to other institutes I researched, and the staff were friendly, patient and motivating throughout."

— Embedded Systems learner

Frequently Asked Questions

Quick answers to the questions learners and parents ask us most.

Q. Do I need prior experience to join?

Most programmes start from the fundamentals. Each programme lists its eligibility — our counsellors will confirm the right starting point for your background.

Q. Are classes held online or in the classroom?

Automation, BMS and Embedded programmes are classroom-based with hands-on labs; IT and Digital Marketing programmes are available in classroom, online and hybrid modes. Talk to our counsellors about the best option for your programme.

Q. What batch timings are available?

We run weekday, weekend and fast-track batches, so students and working professionals can both find a schedule that fits.

Q. Is placement guaranteed?

We provide 100% placement assistance — resume building, aptitude and GD training, mock interviews and interview drives through our dedicated placement cell. Final selection depends on each learner's performance, attendance and interview results.

Q. What certificate will I receive?

It depends on the vertical — see 'Which Certificate Do I Get?' in this profile. Every programme includes an IPCS Global course certificate and Internship Certification.

Q. Can I attend a class before enrolling?

Yes. Book a free demo session to meet the trainers, see the labs and experience a live class before you decide.

Q. What are the course fees?

Fees depend on the programme and batch type. Please contact the Coimbatore branch for the current fee structure and any available offers.

Q. Can working professionals join?

Yes. Weekend and fast-track batches are designed for people who are working or studying alongside the course.

Q. Do you partner with colleges?

Yes. We sign MOUs with colleges for industry-aligned training, seminars, workshops and placement support. Contact us to arrange a session at your campus.
